Technical Skills

- Languages: JAVA
- DSA
- HTML, CSS, JavaScript
- Front-end: Bootstrap- Currently learning React
- Back-end: Node.js, currently learning
- Databases: MySQL
- Also familiar with WordPress (python and GitHub),

Soft Skill

- Strong attention to detail and commitment to delivering high-quality work.
- Excellent problem-solving skills and ability to learn new technologies quickly.
- Effective teamwork and communication skills developed through collaborative projects.

Education Background

● Intermediate

Certificate in CBSC Vivekanand Vidyapeeth Senior Secondary Public School

● Pursuing-undergraduate (UG)

Bachelor of B.tech, Greater Noida Institute of Technology

Will Complete in 2024

About Me

Throughout my academic journey, I have developed a deep understanding of web development principles, including responsive design, user interface development, and database management. I enjoy the process of turning ideas into reality, collaborating with teams, and finding creative solutions to complex problems. My dedication to continuous learning allows me to stay updated with the latest industry trends and emerging technologies in the web development field.

Projects

Personal Portfolio Website

- Designed and developed a personal portfolio website to showcase my skills, projects, and achievements using HTML, CSS, and JavaScript.
- Implemented responsive design principles to ensure optimal user experience across various devices.
- Showcased attention to detail by creating a visually appealing and user-friendly interface.

Calculator Application

- Created a calculator application using JavaScript, HTML, and CSS.
- Implemented basic arithmetic operations and provided a user-friendly interface for input and output.
- Demonstrated problem-solving skills by handling edge cases and validating user inputs.

Amazon Clone with Rental Services (Ongoing)

- Currently working on an Amazon clone project that includes rental services for products.
- Utilizing React, Node.js, Express, MongoDB, and AWS services.
- Gaining valuable experience in building a full-stack e-commerce application with complex functionalities, including user authentication, product listing, shopping cart management, payment integration, and rental service implementation.
- Learning key concepts such as state management, RESTful APIs, database design, and deployment on cloud platforms.
- Demonstrating perseverance and adaptability through overcoming challenges and continuously improving the application.

Achievements

CERTIFICATE

- Coding Ninjas: Java, Python, DSA, JavaScript, and Database C Language
- HackerRank: Problem Solving

Honors & awards

- ★ Java in HackerRank (Apr 2022)
- Hackathon 1st Prize at Lloyd Institute of Engineering and Technology (Apr 2022)
